Greetings

Railroad Men

WE have always at all times taken a hand in everything that would help anybody or group of people in improving their own earnings, their expenditures and in general their living conditions. Glad are we that we can take a hand in presenting you this valuable booklet, its use will prove more than profitable to you. Likewise this reliable home owned store has proved profitable to so many that we are known far and wide as...

"Greensboro's Best"

# The HERITAGE OF A GOLDEN AGE

A tranquil, happy life, free of financial worries...this is the heritage of the golden age when the time comes to step aside from active work. But, unless provision for it is made during the younger years, old age will be spent in a losing struggle for existence in a world that demands younger men to keep the wheels turning.

## *Statistics show that*

out of 100 average healthy men at age 25, at age 65

36 will be dead  
1 will be rich  
4 will be wealthy

5 will be supporting themselves by work  
54 will be dependent upon friends, relatives or public charity.

We have a plan that will guarantee financial independence during the years that should be the happiest in your life.

### *FELLOW RAILROAD MEN!*

I present you this Tri-fold Booklet with the compliments of the within advertisers. They are your friends and they show it by making the presentation of such a valuable book to you. They are ever anxious to help you in every way and especially request that you visit them. Give them a chance to serve you and your family in the purchasing of anything in their line. In compiling this book, I have tried to fill the book with the most useful information concerning you—your seniority, your earnings and your expenditures and I am sure that you will not only keep it and use it for years but that you will derive great pleasures from its use, and that you will show your appreciations of having received it by patronizing the advertisers who presents you the best and only "SENIORITY LIST TIME BOOK AND BUDGET" ever printed. If you wish a New Book each year, tell the within advertisers how much you appreciate this one and they will as usual, be glad to assist in presenting you one each year. Use the Budget Page, because budgeting your income helps anyone to save. Its value lies not only in its value as a record but in its value as a regulator. When you first get started making your plans to spend your income in the most intelligent way—THE BUDGET WAY—you will be interested and surprised to discover the number of leaks there is in your pocket-book. You will be equally surprised at the ease with which these leaks can be stopped. Small things which you may have considered trivial will come to your attention and you will see the foolishness of some of the useless expenditures that are responsible for a low cash balance. Being a railroad man myself, I think you will thank every advertiser in this book for helping give you such a valuable book and I'll ask your comments and suggestions and if there is anything I can add that will cause it to serve you better next year, tell me about it and it will sure go in.

Remember to visit and patronize the advertisers.

Respectfully,

M. O. ROBERTS.

ASK...any grocer why he stocks *Red Band Flour*. He'll answer, "Because there's more demand."

ASK...that grocer's customers why they buy *Red Band*. They tell you, "Because *Red Band* requires less shortening, mixes better, bakes better."

Every bag is success-insured...and that goes for selling as well as baking.
